

Monbeef Pty Ltd

Pollution Incident Response Management Plan (PIRMP)

Website Summary

1. Notification and Communication Mechanisms

1.1 Notification to External Agencies

- In the event of an emergency, the Plant Manager (or delegate) will determine the activation of the PIRMP and the need to notify external agencies (in consultation with the Health and Safety Manager and the Environmental Advisor). The Plant Manager will delegate responsibilities to complete actions related to notification.
- Regulatory Notification requirements:
 - Emergency situations involving serious injury or illness, a fatality or dangerous incident must be notified to NSW SafeWork **immediately*** and notified to the insurer within 48 hours.
 - Emergency situations causing or threatening to cause **material harm*** to the environment must be reported **immediately*** to the Environmental Protection Authority, HSW Health, NSW Fire and Rescue, NSW SafeWork and the Local Council (contact details listed below).
 - *Immediately* means 'promptly and without delay'.
 - *Material Harm* means 'non trivial' harm or harm that results in actual or potential loss or property damage exceeding \$10,000 including clean-up costs.
 - All listed agencies must be notified, whether they decide to take action or not. Individual agencies will advise on requirements once informed of nature of pollution incident.

1.2 Notification to Owners/Occupiers of Premises in Vicinity

The names and contact details of the owners and occupiers of land adjoining and adjacent to Monbeef Pty Ltd, are to formulate part of the PIRMP. In the case of a pollution incident threatening safety of persons or material environmental harm owners/occupiers will be contacted as soon as practical with regular updates made. Mechanisms for communication may include the following:

- Incident notification posted on the company/business website.
- Telephone communication.
- Letterbox drops.
- Doorknocking.

Information to be communicated will include:

- Incident type and description (if available).
- Associated risk.

- Required response or actions by affected person. For example, restrictions of water usage in the case of effluent discharge to a waterway or movement of livestock.
